

## Showbie Student Registration Guide

Showbie can be accessed online by typing **my.showbie.com** in the address bar.

It can also be downloaded as an app.

To set up your child's account click on **Get Started**

Click on **I'm a Student**. This is because you will be creating an account for your child.

Enter the **Class Code** for your child's class. This will have been given to you. It is a mix of five letters and numbers.

Then click on **Sign Up with Username**

Then fill in your child's details.

There are millions of users so you may need to think of an unusual username for them to use. It may take more than one attempt for you to choose one that no one has already chosen. Make a note of the username and password.

A screenshot of a web browser displaying the 'showbie' website. The page has a blue background with a pattern of small white icons. In the center, there is a white 'Student Sign Up' form with a green 'Sign Up' button. The form fields are: First Name, Last Name, Username, Password, and Email (Optional). A green arrow points from the top left of the page to the 'Username' field. Another green arrow points from the bottom right of the page to the 'Email (Optional)' field. Below the form, there is a link that says 'Already registered? Sign In'. The browser's address bar shows the URL 'https://my.showbie.com/signup/student/details'. The Windows taskbar is visible at the bottom of the screen.

You can use your own email address, or your child's Glow email address if you have it.

The teachers will add you to the class and you will then have access to everything.
